Why Use Cleaning with a Conscience?

CLEANING
with a conscience

Cleaning with a Conscience was set up to meet a need within the community for a personalised cleaning service for people impacted by hoarding and is operated by **CVO East Ayrshire** a registered Scottish Charity.

In addition to providing a much needed service within the community *Cleaning with a Conscience* provides training and employment opportunities for people living in East Ayrshire who would otherwise struggle to access employment or education.

We have now expanded our services to offer general domestic and specialist commercial property cleaning.

Hoarding Service

CLEANING
with a conscience

Cleaning with a Conscience is a social enterprise bespoke cleaning service based in East Ayrshire. We specialise in dealing with difficult house clearances which arise as a result of hoarding.

We are often asked to step in and help either by the person themselves, from relatives or by partner agencies. Once the necessary support has been identified we are here to advise you through the entire process and ensure the property is completely cleared and cleaned in a conscientious and efficient manner.

We can sensitively help you to work through the often-painful process of disposing of unwanted clutter.

Our cleaning staff will carefully and methodically work with you to help you regain control of your home.

Depending on the size of your home and the amount of material to be cleared, the work can take anything from one day with a two-person team to three or four days.
